I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I object to the clause "inordinate amount". I have received micronized progesterone from Madison, Wisconsin since 1989. It was the only place that was servicing the needs of women with hormonal imbalances. I am also a Health Consultant & many people who consult with me to be educated on women's health also receive micronized progesterone. As a health consumer & patient advocate I object to restrictions put on the public to choose where they purchase their health products. No other resource has provided up to date help to live a healthy life without Please fold, seal, and mail by June 1 Severe symptoms.
